This tab goes back to 1976, after I had been playing banjo for about ten years, and had only recently discovered the playing of Bill Keith. It was the first tune in a book of tabs I put together that was published by Hargail Music Press, called Fiddle Tunes for Bluegrass Banjo. A fiddle playing friend of mine suggested we add it to our tune list, and I realize I had forgotten what a great tune it is. I was able to pick it right off, even though I hadn't played it in years and years.
